Product and Description

Part Number: 5311

Description: Round twisted 3 ply cord manufactured from 100% high tenacity continuous filament Nomex fiber. This material is intended for use in applications requiring heat resistance to 180 degrees C.

Additional Information: This cord is treated with a specially formulated finish that reduces fraying and improves knot holding / tying characteristics. This cord is designed for use in high volume automatic stator lacing applications. Finish is 3-6% polyester based polyurethane. The finish is fully cured and cross linked during processing and is used in a variety of UL approved insulation systems. Complies with U.L. test sample BPCCT180.
