Product and Description

Part Number: 250LS

Description: Flat braided tape manufactured from 100% high tenacity continuous filament industrial polyester fiber. This material is intended for use in applications requiring heat resistance to 155 degrees C. The tape is heat shrinkable.

Additional Information: This tape is treated with a specially formulated finish that improves knot holding and tying characteristics. This tape is designed for lacing end turns of stators. This tape has less shrinkage than our standard tapes. Complies with U.L. test sample BPCCT155.

Attributes

Width: .225" - .275"

Thickness: .015" - .025"

Tensile Strength (Minimum): 225 LBS. (Minimum)

Standard Package: 250 Yards

Standard Color(s): Natural

Shrinkage: 4% (Plus or Minus 2%) @ 350 Degrees F.
