Product and Description

Part Number: 252LS

Description: Round twisted 3 ply cord manufactured from 100% high tenacity continuous filament industrial polyester fiber. This material is intended for use in applications requiring heat resistance to 155 degrees C. This cord has low shrinkage properties.

Additional Information: This cord is treated with a specially formulated finish that reduces fraying and knot tying characteristics. This cord is designed for use in high volume automatic stator lacing applications. This cord has less shrinkage than our standard cords. Complies with U.L. test sample BPCCT155.
